Front End Developer

I am a self-taught front-end developer, seeking work opportunities to gain more experience, develop myself further, and work on interesting projects.

I have decent experience in markup, using BEM and sass 7-1 architecture, also I have good experience using js es6, jQuery, I have been working on different kinds of projects like ecommerce, magazine websites, portfolio websites, landing pages and so on.

I am highly motivated to learn and improve my coding skills to write clean, elegant, and efficient code.

SKILLS

Strong: html5, css3, responsive web design, css animations, sass

Medium: javascript (ES5, ES6, ES7) , jQuery, react, redux, redux-toolkit, rest API, bootstrap4, tailwind
